The Company's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

### Scope of Review

I conducted my reviews in accordance with Thai Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### Conclusion

Based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 "Interim Financial Reporting".

- 1) Adjustment to the translation of the financial statements of a foreign operation by applying monthly average exchange rates to the financial statement translation for the purpose of preparing the Group's consolidated financial statements.

Furthermore, the joint venture has not issued share certificates as evidence of the investment to the joint venturers, as the valuation of each venturer's assets is being still in progress to determine the appropriate value and proportion of the investment, in alignment with the agreed investment amount.
