

## **AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION**

To the Shareholders of Samchai Steel Industries Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position as at 30 September 2025 and the related consolidated and separate statements of comprehensive income for the three months and nine months period ended 30 September 2025, changes in shareholders' equity and cash flows for the nine months period then ended and the condensed notes to financial statements of Samchai Steel Industries Public Company Limited and its subsidiaries and of Samchai Steel Industries Public Company Limited. The Company's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

### **Scope of Review**

Except as explained in the basis for qualified conclusion paragraph, I conducted my reviews in accordance with Thai Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### **Basis for Qualified Conclusion**

I draw attention to notes to the financial statements No. 22, the group has the loss from selling in the subsidiary in the Kingdom of Cambodia in the first quarter of 2024 equivalent to 45.02% arose from the subsidiary sold the products under the cost price, resulted in the gross loss Baht 105.33 million on the consolidated and separate statements of comprehensive income for the nine months periods ended 30 September 2024. Consequently, the former auditor issued a qualified conclusion on the consolidated and separate statements of comprehensive income for the nine months period ended 30 September 2024, as the former auditor was unable to determine whether, and to what extent, adjustments were required to the inventories presented in the consolidated and separate statements of financial position as at 31 December 2023, the deficits in the consolidated and separate statements of financial position as at 30 September 2024 and 31 December 2023, and cost of sales in the consolidated and separate statements of comprehensive income for the nine months period ended 30 September 2024. Subsequently, the management engaged an independent expert to conduct a special investigation on this matter as instructed by the Securities and Exchange Commission of Thailand. The results of the special audit, reported on 30 June 2025, concluded that the

inventories and cost of sales of the Company and its subsidiaries for the years 2023 and 2024 were incorrect. The Company's management is in gathering information to adjust the inventories and deficits in the consolidated and separate statements of financial position as at 30 September 2024 and 31 December 2023, as well as to adjust to cost of sales in the consolidated and separate statements of comprehensive income for the three months and nine months period ended 30 September 2024. However, the Securities and Exchange Commission of Thailand issued an official letter No. KorLorTor.KorRor. 3950/2568, dated 7 November 2025, instructing the Company to revise its financial statements for the year ended 31 December 2024, as well as the financial statements for the three months and six months periods ended 30 June 2025. Accordingly, the consolidated and separate statements of comprehensive income for the three months and nine months period ended 30 September 2025, are not affected by this matter. However, the matter has not yet been revised so, I have issued a qualified conclusion on the consolidated and separate statements of comprehensive income for the three months and nine months period ended 30 September 2025, due to the matter may affect the comparability of the current period's figures and the corresponding figures of the consolidated and separate financial performance.

**Qualified Conclusion**

Except for the possible effects on the corresponding figures of the matter described in the Basis for Qualified Conclusion paragraph, based on my reviews, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting".

**Emphasis of Matters**

I draw attention to notes to the financial statements No. 25, consolidated statements of financial position as at 31 December 2024 and the related consolidated statements of comprehensive income for the three months and nine months period ended 30 September 2024, changes in shareholders' equity and cash flows for the nine months period then ended, which presented herein for comparative purpose, have been adjustments to the translation of financial statements of foreign operations and non-recognition of the investment in the joint venture and share of profit from the joint venture due to the investment payment has not yet been made, including of have not received for share certificate as evidence for right on joint company. I was not engaged to audit the financial statements for the year ended 31 December 2024, and review the financial statements for the three months and nine months period ended 30 September 2024, or apply any procedure other than with respect to the adjustments. Accordingly, I do not express an opinion on the financial statements for the year ended 31 December 2024, and do not express an assurance on the financial statements for the three months and nine

## **25. Effects from Retrospective Adjustments**

The Group has restated its consolidated financial statements for the three months and nine months period ended 30 September 2024 and for the year ended 31 December 2024 retrospective adjustments relating to the correction of error as follows:-

- 1) Adjustment to the translation of the financial statements of a foreign operation by applying monthly average exchange rates to the financial statement translation for the purpose of preparing the Group's consolidated financial statements.
- 2) Reassessment of the recognition of an investment in a joint venture and share of profit from investment in the joint venture because the subsidiary had not yet fulfilled its capital contribution comprising both cash and non-monetary assets in exchange for an ownership interest in the joint venture in accordance with the joint venture agreement dated 10 December 2023. Accordingly, the joint venture has been officially registered with the relevant government authorities in Cambodia on 10 June 2024. However, the subsidiary has not yet made the required capital contributions or transferred assets for investment purposes. Furthermore, the joint venture has not issued share certificates as evidence of the investment to the joint venturers, as the valuation of each venturer's assets is being still in progress to determine the appropriate value and proportion of the investment, in alignment with the agreed investment amount. Additionally, the joint venture agreement does not specify a definitive timeline for capital contributions. As a result, the Group has adjusted the value of the investment in the joint venture and accrued share subscription payment in full amount together with deferred recognition of share of profit or loss until the capital contributions or demonstrating the rights and obligations associated with the joint venture.

Therefore, the Group has restated its consolidated financial statements retrospective adjustments.
